FOR IMMEDIATE RELEASE

C.C. CREATIONS RANKS #11 IN THE NATION

Impressions names C.C. Creations the 11th largest screen printer and embroiderer by volume in the nation.

Bryan, Texas July 14, 2009 -- *Impressions*, the leading industry periodical for decorated apparel, released its list of Top Volume Shops for 2009 ranking C.C. Creations number 11 in the nation. The ranking also recognizes C.C. Creations as the #1 decorator in Texas. This year's ranking sees C.C. Creations jumping two spots from number 13, attributed to an increase of 8% in total units printed.

The magazine researches screen printers and embroiderers from across the nation to compile its list of the industry's top 50. Under the current economic climate *Impressions* did expect some shake up in their list from previous years, and while there was some change, many of the top 50 remained on the list. Some, including C.C. Creations, saw even better results than in the past. C.C. Creations, like many of the top-rated companies, credits much of their current success during these difficult times to the relationships it has with its customers. "Our motto is 'Building Better Relationships'," says Vice President of Sales, Robert Davis. "During times like this there is nothing more important to the success of any company. We value every customer and do our best to go above and beyond to earn and keep their business."

To receive its #11 ranking, C.C. Creations decorated 3,680,000 units last year. Compared to the number one company, Fortune Fashions out of Los Angeles, with over 37 million units printed last year, C.C. Creations is some distance away from number one. "We are close to breaking into the top 10 though," says Kenny Lawson, the company's President. "This ranking is a tribute to our hard-working employees who make that kind of success possible. I have every confidence that, because of them, we will soon see C.C. Creations in the top 10. This is a very exciting time for us."
