

COVID-19 UPDATE

Dear Valued Customers,

First, we hope this email finds you and your families healthy and safe during this COVID-19 pandemic and these uncertain times. Know we are thinking of you and continue to be committed to your success now and in the future.

As the outbreak rapidly spreads nationwide, more and more cities and states are instituting shelter-in-place mandates to stop the spread of the virus. With that, the local government, where our production facility and corporate headquarters are located, has issued a shelter in place for our community effective Tuesday, March 24 at 9:00 p.m. CST, for a period of two (2) weeks, ending at 11:59 p.m. CST, Tuesday, April 7. In an effort to be socially responsible and with an abundance of caution for our employees, customers and community, we have determined to close our facilities.

There will be a small team of essential personnel available during this time so please don't hesitate reaching out by phone, 1-800-324-1268, or by email, SalesSupport@ccc creationsusa.com. However, we will not be able to produce or ship orders during this time. We understand the challenges this might create and assure you we will do everything in our control to minimize the impact on you and your organization.

We will actively communicate during this ever-evolving situation. Our thoughts continue to be with you, and we look forward to supporting your success long after this is behind us.

Thank you for your patience and understanding.

Jimmy Turner
President, C.C. Creations
